

Workers' Compensation California Class Codes

Class codes are assigned by the WCIRB for each type of business operation. Affiliates who are not sure how to classify a particular prospect have a variety of resources available, including Compline (what class codes are currently assigned to the account), the expiring policy (not always accurate), and the WCIRB (<https://wcirbonline.org/wcirb/>).

If the affiliate provides a complete description of operations on the app and is not sure of the exact class code, the placement specialist will assist with the class code.

Attached are class codes listed numerically and alphabetically. Codes change yearly. This list published November, 2010.
